18 Volt DC Craftsman Battery - UL Approved System	

**DESCRIPTION**

The AmeriGlide Luxury Bath Lift is an exceptional product that will allow you to avoid having to step over the ledge of your tub. Unlike other lifts that require you to enter the tub and lower yourself to the chair height, the Luxury Bath Lift will raise you up, allowing for plenty of leg room to safely clear the edge of the tub, before safely placing you in your tub for a relaxing and therapeutic bath. This entire process takes just one minute and is easily repeated with the push of a button when you are ready to exit your tub. You can eliminate the risk of falling and safely enjoy your existing tub again with AmeriGlide's Luxury Bath Lift.

With a bathtub lift from AmeriGlide, you can easily care for a family member in your home or you can help give a family member an added security so they can maintain their independence.
